PROFILE

Senior Product Designer with 5+ years of experience designing and growing B2C mobile products, from early research and zero-to-one launches through iteration and growth. Focused on intuitive user journeys, interaction design, and visually consistent mobile experiences.

EXPERIENCE

Thinkabout LTD

Limassol, Cyprus

Senior Product Designer Jan 2021 – Present

• Launched Car Play Sync & Connect from scratch, reaching **200K MAU.** Refined the add-car flow based on early testing and moved first-car setup into onboarding, increasing **subscription conversion by 15%**.

• Increased **retention by 1.8 percentage points** by introducing document storage in Car Play Sync & Connect.

• Optimized Reflex & Reaction Time Test by updating its visual language, screen structure, and game mechanics, **increasing average session duration by 9% and MAU by 29%.**

• Introduced a post-paywall upsell flow with gamification in Scales Grams, **increasing ARPPU by 8%.**

• Defined the AI Assistant architecture in Car Play Sync & Connect for vehicle diagnostics, repair, and maintenance, and established workflows with frontend developers to integrate personalized AI features.

Mobile Designer — Freelance

Jul 2020 – Jan 2021
